upon merchantmen in the "war zone" of British home waters and attack and crews have been accorded safety." In practice naval commanders generally, if not always, were governing themselves by the same rule in British home waters.

About the middle of February there were signs of backsliding; the temptation to resume "submarine warfare" in the "war zone" was reflected in a protest by Germany against the arming of merchantmen, which was construed as tantamount to intention to fire on submarines. In a memorandum notice was given that "the German naval forces will receive orders within a short period, paying consideration to the interests of neutrals. to treat such vessels as belligerents. But Secretary Lansing stood firm for the British contention that a merchantman had a right to carry a gun

for protection only; Congress sustnined the Administration, and Germany yielded. So the case stands. and we maintain that the Imperial Government cannot take a backward It seems impossible to make old step without violating its pledges and fashioned countries understand that, risking a rupture with the United
